

Mass control is the latest marketing system that has been created by Frank Kern and could potentially revolutionize how we market online. The possibilities are countless when you consider that Frank has tried and tested his Mass Control marketing system within many different niches and under many different circumstances. The chance to improve your overall marketing skills and to obviously increase your income by using Mass Control within your niche or with in a niche that you are planning to go into.

I suppose you may not know who the man behind Mass Control so I'll give you do the low down. Frank Kern is one of the most in demand marketers out there but he has chose to remain under the radar and to only work with a select group of his choosing. He used to be big in the marketing arena but a few years ago he decided it was time to go underground and completely cut of all contact with his subscribers, disappeared from seminars and eventually stopped working on anything that wasn't a million dollar project.

There is no doubt in my mind if you have seen or heard of Frank Kern then he has probably had a positive impact on your marketing.

What launches has Frank Kern been involved in recently?

- 1) Stompernet Launch - \$18 million in 24hrs
- 2) Marketed A Dating Product - \$1.4 million in four hours
- 3) Serializer Seminars - \$1 million in 54 minutes

Last but not least he is currently making over a million dollars a year selling "non marketing" stuff to a wide range of different niches.

So now you have the background on Frank Kern your probably wondering what exactly Mass Control is?

Its the art of selling without selling and its a system that Frank has created so that anyone can copy and replicate what he is doing. Marketing experience isn't important, what niche your in isn't important, having a list isn't important. I think that is why Mass Control is creating so much hype because it blows open the strategies that 99% of marketers out there don't know about.
